

ODAK Connect Water Cooler

Save over 90% on bottled water cost by taking advantage of our submicron filtration and direct chill technologies.

Based on 750 gallons of H2O per cooler.

Here is an example of how replacing 12 coolers in your business can save you over \$14k annually.

Bottled water:

\$1282.00 x 12 coolers

\$15,384.00 annual cost!

Odak Water

\$54.99 x 12 coolers

\$659.88 annual cost

After your initial cooler investment - Based on 12 coolers, your company's annual savings would be over \$14,724.12!

Our filters are NSF certified for treatment of 750 gallons of water.

ODAK's k-500 filter costs \$54.99 (retail) which costs only \$0.08 per gallon.

The average 5 gallon bottle costs \$8.55 / \$1.71 per gallon.

\$0.08 per gallon x 750 gallons = **\$54.99 per cooler** for 1 cartridge (750 gallons) annual water cost.

\$8.55 x 150 (5 gallon bottles) = **\$1,282.00 per cooler** for (750 gallons) annual water cost.

Odak's **Cosmetal Connect Hot and Cold Complete Drinking Water System** is the newest addition to our ever-growing inventory. At home or in the office, it's very convenient for you to draw a glass of sparkling, cold, water any time you wish. Our **Green Bottleless** Water Cooler utilizes a Direct Chill Coil (DCC). This feature chills without an open storage tank providing better sanitation.

Not only can you have great tasting, cold water but you can also enjoy a cup of tea in the morning and a cup of soup at noon. This model uses a unique stainless steel hot tank with a capacity of 1.5 liters. This stainless steel tank keeps the water at its **hottest** and provides you with extraordinarily fast temperature recovery.

Our ODAK500 solid carbon block filter is mounted within the cabinet of the water cooler making it a Complete Drinking Water System.

We eliminate the unnecessary carrying and storage of 5 gallon bottles, cleaning of tanks, and uncertainty about your quality of drinking water.

- ODAK's systems are certified by NSF to reduce a wide range of contaminants of health concern, as well as aesthetically improve the water.
- ODAK Drinking Water Systems reduce MTBE, VOC's, chlorination by-products, PCBs, chloramine, pesticides, herbicides, heavy metals like lead and mercury, and many other contaminants.

With Odak:

- Beneficial minerals remain in the water.
- Nothing harmful is added to the water.
- Filters should be replaced once a year. ODAK water costs about 8 cents per gallon.
- There is a **LIFETIME** warranty on the stainless steel and plastic housings (provided that the filter is changed at least once a year.)
