

Here is an example of how replacing 12 coolers in your business can save you over \$14k annually.

Our filters are NSF certified for treatment of 750 gallons of water.

The average 5 gallon bottle costs \$8.55 / \$1.71 per gallon.

$\$8.55 \times 150$ (5 gallon bottles) = **\$1,282.00 per cooler** for (750 gallons) annual water cost.

- **Bottled water:**
\$1282.00 x 12 coolers =
\$15,384.00 annual cost

ODAK's k-500 filter costs \$54.99 (retail) **which costs only \$0.07 per gallon.**

$\$0.07$ per gallon x 750 gallons = **\$54.99 per cooler** for (750 gallons) annual water cost.

- **ODAK:**
\$54.99 x 12 coolers =
\$659.88 annual cost

After your initial cooler investment- Based on 12 coolers, your company's savings would be over \$14,724.12 dollars per year.

ODAK Model # Rio-C Water Cooler and Save over 90% on bottled water cost by taking advantage of our submicron filtration and direct chill technologies.

Our Model # Rio-C **Complete** Drinking Water System (pictured \$1199.00) is the newest addition to our ever-growing inventory. It comes in two (2) colors, white as pictured right and gray on black. At home or in the office, it's very convenient for you to draw a glass of sparkling, cold, water any time you wish. The Rio-C Water Cooler utilizes a Direct Chill Coil (DCC). This feature chills without an open storage tank providing better sanitation.

Not only can you have great tasting, cold water but you can also enjoy a cup of tea in the morning and a cup of soup at noon. This model uses a unique stainless steel hot tank with a capacity of 1.5 liters. This stainless steel tank keeps the water at its hottest and provides you with extraordinarily fast temperature recovery.

Our ODAK500 solid carbon block filter is mounted within the cabinet on the inside of the water cooler making it a Complete Drinking Water System.

We eliminate the unnecessary carrying and storage of 5 gallon bottles, cleaning of tanks, and uncertainty about your quality of drinking water. For more information and pictures on this and other products, go to Odak.com or visit our showroom in Green Brook NJ.

- ODAK's systems are certified by NSF to reduce a wide range of contaminants of health concern, as well as aesthetically improve the water.
- ODAK Drinking Water Systems reduce MTBE, chlorination by-products, PCBs, chloramine, pesticides, herbicides, heavy metals like lead and mercury, and many other contaminants.
- Beneficial minerals remain in the water.
- Nothing harmful is added to the water.
- Filters should be replaced once a year. ODAK water costs about 6 cents per gallon.
- There is a 25 year warranty on the stainless steel and plastic housings (provided that the filter is changed at least once a year.)
